Valsana Hotel Arosa

Beautifully Simple

The Valsana Hotel Arosa sits at the entrance of the village; bordering the Arosa forest, flanked by the lake which freezes over in winter to host horse racing in January and surrounded by beautiful panoramic views of the mountains. The architecture and interior design are an interpretation of the forest and the surrounding nature, while also using the latest technological innovations to minimise the hotel's impact on the environment. The hotel will be powered using an ice battery, no less!

In addition, Valsana Hotel Arosa has been, as a member of Tschuggen Hotel Group, completely climate-neutral since 2019. Together with the Swiss organisation myclimate, the CO2 emissions of the hotel group were calculated. Based on this, various measures were then introduced to minimise the ecological footprint. The measures are rounded off by the support of various climate protection projects that compensate for the unavoidable CO2 emissions.

The hotel features 40 rooms and 9 apartments (1-2 bedrooms with kitchenettes), each complete with large balconies, a restaurant with a huge sun-soaked terrace vis-a-vis the mountains and an 800 sqm spa nestling on the edge of the Arosa forest.

Restaurant Twist: Simply Delicious

The lobby, lounge, restaurant and bar all merge seamlessly into a single contiguous space where guests and locals alike can enjoy an après-ski cocktail, a delicious four-course dinner, a simple snack or sharing platter, soak up a weekly movie night or simply read a book by the fireside (an old antique we found in France). The centrepiece of the hotel's public space, the restaurant Twist, celebrates regional fare with a contemporary touch and a menu peppered with healthy alternatives. Showcasing local vines, our feature self-service wine dispensers lend themselves to impromptu wine tastings and underscore an atmosphere of casual independence as we aim to become the living room of Arosa.

VALSANA

Rooms: Welcome Home

Oak floors, individually selected furniture pieces and stunning views lend a natural rustic warmth to designer rooms that juxtapose the high-tech needs of modern life with a nostalgic touch for a time when holidays were just that. Guests can, of course, stream their own music, photos or movies through our flat screen televisions or book a massage through our in-room suite-pads. They are just as welcome, however, to kick back a gear lounging in a hammock found on each of the rooms' sizeable balconies, book in hand (each room comes complete with a small, select second-hand library), with the surrounding mountainscape and music from a vintage record player providing the backdrop.

Things to Do

The closest ski lift is a short walk away, you can ski back to the hotel's doorstep and there is a substantial sport shop on site for all your equipment needs. At 1800 m above-sea-level, the ski resorts of Arosa-Lenzerheide feature 225 km of ski pistes, 60 km of mountain walking paths and fantastic ski touring to neighbouring Davos/Klosters and beyond. In summer Arosa turns into a hotspot for mountain bikers and hikers with over 200 km of biking trails.

Spa

The 800 sqm spa includes a relax pool facing the mountains, a state of the art gym, a dedicated panoramic studio for yoga and fitness classes, steam bath and saunas made from reclaimed wood with views to transport you straight into the Arosa forest.
